

AMENDMENT TO SPECIFICATION

[Deleted material is double struck-through and added material is underlined]

On page 14, amend the sentence beginning at line 7 and ending at line 10:

When electric power is generated in a generator ~~30~~ 70 by using the same generating set as is shown in Fig. 1 to Fig. 3, the bubbled compressed air sent into a bucket 50 is lifted with the bucket 50 in a liquid 20 stored in the interior of the tower 10 as the bubbled compressed air receives buoyancy from the liquid.
